

Debris Netting

DESCRIPTION

The DuraDrive Blue Safety Scaffold Fire Retardant Debris Netting is made with top grade raw materials using new weaving technology to enhance the strength of the net. Designed to stop the dust, debris & tools from falling to protect workers, pedestrians and adjacent properties. Bright blue colour creates a visual barrier for safety.

FEATURES

- Allows air to pass through for ventilation
- UV resistant
- Will not unravel when cut
- Edges are hemmed and reinforced for fastening

MATERIAL PROPERTIES	
DESCRIPTION	DEBRIS NETTING TYPICAL1 PROPERTIES
Weight of Mesh	130gsm
Density of Mesh	55%
Fire Retardancy	pass NFPA-701, method 2
Roll Dimensions - ITEM#28660	1.83*50M (6' x 164')
Roll Dimensions - ITEM#30578	3.05*50M (10' x 164')
